HOW TO USE THIS PACK

Copy any complete prompt into your preferred image generator. Each prompt specifies the occupation, visual symbols, art style, palette, composition, and exact KJV text. Verify all generated lettering before printing. Scripture excerpts are from the public-domain King James Version; these are excerpts, not full verses.

Production tip: request a transparent background for apparel and stickers. For wall art, replace the transparent background instruction with a full-bleed composition. Inspect punctuation and letterforms carefully.
