HOW TO USE THE PROMPTS

01 COPY ONE COMPLETE PROMPT

Each entry is a standalone prompt, with its own phrase, layout, palette, and dimensional construction.

02 GENERATE AS A DESIGN

Use an image generator that supports lettering and transparent PNG output. Check spelling before selling.

03 PUSH THE POP-OUT EFFECT

Ask for dramatic foreshortening, thick extruded edges, strong contact shadows, layered tile stacks, and near-camera elements.

04 VERIFY THE MAHJONG DETAILS

Use plausible mahjong tile faces, accurate bamboo/dot/character motifs, and avoid accidental fake lettering.

05 PREP FOR PRINT

Remove backgrounds if necessary, inspect fine details, upscale appropriately, and check print readability at shirt size.

DESIGN RULE

Humor stays playful and clean. These are original generic sayings; review phrases for marketplace/trademark suitability before commercial use.

250 MAHJONG POP-OUT PROMPTS
