A CREATIVE PROMPT COLLECTION FOR DESIGNERS & MAKERS

250 AUTISM AWARENESS AI IMAGE PROMPTS

APRIL • AWARENESS • ACCEPTANCE • EDUCATION • SUPPORT

This pack contains **250 text-ready prompts** covering autism awareness and acceptance, neurodiversity-inspired artwork, school and teacher designs, family support, adult work life, funny and relatable sayings, hobbies, cute characters, florals, retro/Y2K, alternative styles, and more.

TEXT RULE: All requested readable design wording is English only. Prompts explicitly request no pseudo-text, no extra letters, and no watermark.

IMAGERY NOTE: Prompts favor the rainbow infinity symbol and sunflower, which many in the autistic community currently prefer over the puzzle piece. Swap in a different symbol in any prompt if your brand uses another one.

IMPORTANT: These are creative design prompts, not medical advice. The wording is written to be supportive and avoids claiming that every autistic person has the same experience.
