001 • UNHINGED FISHING HUMOR

Create an original, high-impact fishing merchandise graphic built around the exact readable phrase "REEL MEN HAVE TACKLE ISSUES". CONCEPT: absurd fish-story humor, cocky weekend-angler energy and visual jokes that feel like a gas-station sticker wall collided with a vintage bait shop. HERO ART: a high-energy largemouth bass launching through a shattered retro sunset while a crankbait swings inches from its mouth. Add one tiny visual joke that rewards a second look, such as a lure stuck in a hat, a fish stealing the bait bucket or a bobber behaving like a warning light. STYLE: 1970s bait-shop screen print with chunky ink, sun-faded halftones and imperfect registration. COMPOSITION: Build a tall stacked composition where the main fish dramatically breaks through the typography without covering any letters. PALETTE — Toxic Tackle: #B7FF2A, #FF5A36, #101820, #36D6C9, #FFF1C7. Use 4–5 dominant colors plus transparent negative space. DETAIL DIRECTION: Use believable fishing details: correct rod/reel relationship, recognizable lure hardware, purposeful line direction, convincing species anatomy and water texture where appropriate. Favor oversized expressions, memorable silhouette, bold contrast and across-the-room readability. TEXT RULE: Render only "REEL MEN HAVE TACKLE ISSUES". Every letter must be fully readable and correctly spelled; no filler copy, fake brands or pseudo-writing. Transparent background, isolated artwork only. No rectangular scenery, mockup, garment, human model, copyrighted character, celebrity likeness, real brand/tournament logo, watermark or unintended letters.

Push the facial expression and body language hard enough that the joke reads before the viewer reads the words. STYLE: 80s airbrushed marina graphic with chrome-like lettering, sunset glow and dramatic water spray. COMPOSITION: Arrange the design like a fake tournament poster with explosive water, oversized fish, tiny faux decorative marks that are shapes only—not readable sponsor text. PALETTE — Electric Crankbait: #00D9C0, #FFEA00, #FF477E, #263238, #F7F4E9. Use 4–5 dominant colors plus transparent negative space. 248 • GRANDPA'S TACKLE BOX

Create an original, high-impact fishing merchandise graphic built around the exact readable phrase "CRAPPIE BUT HAPPY". **CONCEPT:** old reels, dented thermoses, mystery lures, lucky hats and exaggerated generational fishing wisdom. **HERO ART:** a campfire scene where two fish secretly roast marshmallows on the opposite bank while the anglers sleep. Use exaggerated scale: make one lure, fish, bobber, cooler or reel absurdly oversized compared with the secondary objects. **STYLE:** field-guide engraving corrupted by funny modern typography and strange marginal doodles. **COMPOSITION:** Create a dense tackle-box collage around one clean central phrase; lures and hooks may overlap each other but never obscure the lettering. **PALETTE** — Bluegill Arcade: #22577A, #38A3A5, #80ED99, #FFD166, #EF476F. Use 4–5 dominant colors plus transparent negative space. **DETAIL DIRECTION:** Use believable fishing details: correct rod/reel relationship, recognizable lure hardware, purposeful line direction, convincing species anatomy and water texture where appropriate. Favor oversized expressions, memorable silhouette, bold contrast and across-the-room readability. **TEXT RULE:** Render only "CRAPPIE BUT HAPPY". Every letter must be fully readable and correctly spelled; no filler copy, fake brands or pseudo-writing. Transparent background, isolated artwork only. No rectangular scenery, mockup, garment, human model, copyrighted character, celebrity likeness, real brand/tournament logo, watermark or unintended letters.

249 • WOMEN WHO FISH

Create an original, high-impact fishing merchandise graphic built around the exact readable phrase "MY OTHER THERAPIST IS A TACKLE BOX". **CONCEPT:** bright, confident women-anglers energy with tackle, bass, boots, bows, leopard accents or retro color without turning the design into generic floral art. **HERO ART:** a raccoon raiding an open tackle box while holding a spinnerbait like stolen treasure. Include three layers of depth—foreground tackle, central subject and simplified background water or shoreline—without turning it into a rectangular scene. **STYLE:** bold moonlight fishing badge with hook, moon, star and riverweed motifs. **COMPOSITION:** Make it look like a forgotten bait-shop T-shirt from 1978: huge arched headline, ridiculous mascot center, tiny decorative stars and a chunky lower banner. **PALETTE** — Mud & Chrome: #4B3B2A, #9B6B43, #D5B46A, #D9D9D9, #1E2428. Use 4–5 dominant colors plus transparent negative space. **DETAIL DIRECTION:** Use believable fishing details: correct rod/reel relationship, recognizable lure hardware, purposeful line direction, convincing species anatomy and water texture where appropriate. Favor oversized expressions, memorable silhouette, bold contrast and across-the-room readability. **TEXT RULE:** Render only "MY OTHER THERAPIST IS A TACKLE BOX". 250 • KIDS / LITTLE ANGLERS

Create an original, high-impact fishing merchandise graphic built around the exact readable phrase "MY RETIREMENT PLAN HAS A TROLLING MOTOR". **CONCEPT:** chaotic cute fish, worms with personalities, bobbers, tiny tackle boxes and first-catch excitement. **HERO ART:** a UFO lifting a bewildered bass from a lake in a tractor beam while the abandoned bobber floats below. Make the piece feel collectible, like a legendary shirt found hanging behind the counter of a weird roadside bait shop. **STYLE:** woodcut-meets-punk-poster illustration with carved line texture and rough distressed edges. **COMPOSITION:** Build a tall stacked composition where the main fish dramatically breaks through the typography without covering any letters. **PALETTE** — Pink Bass Club: #FF7AA2, #F6B7C8, #6D8B74, #FFF0DA, #352F44. Use 4–5 dominant colors plus transparent negative space. **DETAIL DIRECTION:** Use believable fishing details: correct rod/reel relationship, recognizable lure hardware, purposeful line direction, convincing species anatomy and water texture where appropriate. Favor oversized expressions, memorable silhouette, bold contrast and across-the-room readability. **TEXT RULE:** Render only "MY RETIREMENT PLAN HAS A TROLLING MOTOR".
